## About Garage Management System:

A **Garage Management System** is software designed to streamline the operations of a vehicle garage or auto repair shop. Its primary function is to assist in managing customer interactions, vehicle service history, inventory, and billing.

Key features often include:

1. **Customer Management:** Stores customer information, vehicle details, and contact information to facilitate quick access and customer service.
2. **Job Scheduling and Appointments:** Manages appointments and schedules maintenance or repair jobs for each vehicle, reducing overlaps and optimizing mechanic workload.
3. **Inventory Management:** Tracks parts and supplies in stock, records new inventory, and alerts for low stock levels, ensuring that necessary parts are always available.
4. **Billing and Invoicing:** Generates invoices based on the services performed and parts used, managing payment records and providing payment processing options.
5. **Service History Tracking:** Maintains a record of past repairs and services for each vehicle, enabling efficient follow-ups and informed maintenance decisions.
6. **Reporting and Analytics:** Offers insights into the business's performance, such as revenue, expenses, job durations, and inventory turnover.

## Garage Management System Setup Guide

### 1. Creating a Salesforce Developer Account:

1. Visit Salesforce Developer Signup.
2. Fill out the signup form:
  - First Name & Last Name
  - Email
  - Role: Developer
  - Company: College Name
  - Country: India
  - Postal Code: Your Pin Code
  - Username: (e.g., username@organization.com)

### 2. Account Activation

1. Check your email inbox for a verification email from Salesforce.
2. Click Verify Account.
3. Set up your password and security question, then click Change Password.

### 3. Creating Salesforce Objects

#### 3.1 Customer Details Object

1. Go to Object Manager > Create > Custom Object.
2. Configure the following:

- Label Name: Customer Details
- Plural Label Name: Customer Details
- Record Name: Customer Name (Text)
- 3. Enable Allow Reports, Track Field History, and Allow Search.
- 4. Click Save.

### **3.2 Appointment Object**

1. Go to Object Manager > Create > Custom Object.
2. Configure the following:
  - Label Name: Appointment
  - Plural Label Name: Appointments
  - Record Name: Appointment Name (Auto Number)
  - Display Format: app-{000}, Starting Number: 1
3. Enable Allow Reports, Track Field History, and Allow Search.
4. Click Save.

### **3.3 Service Records Object**

1. Go to Object Manager > Create > Custom Object.
2. Configure the following:
  - Label Name: Service Records
  - Plural Label Name: Service Records
  - Record Name: Service Records Name (Auto Number)
  - Display Format: ser-{000}, Starting Number: 1
3. Enable Allow Reports, Track Field History, and Allow Search.
4. Click Save.

### **3.4 Billing Details and Feedback Object**

1. Go to Object Manager > Create > Custom Object.
2. Configure the following:
  - Label Name: Billing Details and Feedback
  - Plural Label Name: Billing Details and Feedback
  - Record Name: Billing Details and Feedback Name (Auto Number)
  - Display Format: bill-{000}, Starting Number: 1
3. Enable Allow Reports, Track Field History, and Allow Search.
4. Click Save.

## **4. Creating Custom Tabs**

1. Go to Setup > Tabs > New (under Custom Object Tabs).
2. Select the object (e.g., Customer Details), choose a tab style, and click Next.
3. Configure profile visibility as needed and click Next.
4. Click Save. Repeat for remaining objects (Appointments, Service Records, Billing Details and Feedback).

## **5. Creating a Lightning App**

1. Go to Setup > App Manager > New Lightning App.
2. Configure the app:
  - App Name: Garage Management System Application
  - Leave other settings as default and click Next.
3. Add navigation items (Customer Details, Appointments, Service Records, Billing Details and Feedback, Reports, Dashboards) and click Next.
4. Assign the System Administrator profile to the app and click Save & Finish.

## **6. Creating Fields for Objects**

### **6.1 Customer Details Object**

1. Go to Setup > Object Manager > Customer Details > Fields & Relationships > New.
2. Create the following fields:
  - Phone Number (Phone)
  - Gmail (Email)

### **6.2 Appointment Object**

1. Create a Lookup Relationship to Customer Details.
2. Create the following fields:
  - Maintenance Service (Checkbox)
  - Repairs (Checkbox)
  - Replacement Parts (Checkbox)
  - Appointment Date (Date)
  - Service Amount (Currency)
  - Vehicle Number Plate (Text)

### **6.3 Service Records Object**

1. Create a Lookup Relationship to Appointment.
2. Create the following fields:
  - Quality Check Status (Checkbox)
  - Service Status (Picklist: Started, Completed)
  - Service Date (Formula: Created Date)

### **6.4 Billing Details and Feedback Object**

1. Create a Lookup Relationship to Service Records.
2. Create the following fields:
  - Payment Paid (Currency)
  - Rating for Service (Text)
  - Payment Status (Picklist: Pending, Completed)

## **7. Creating Validation Rules**

### **7.1 Appointment Object**

- Rule Name: Vehicle
- Formula: NOT(REGEX(Vehicle\_number\_plate\_\_c, "[A-Z]{2}[0-9]{2}[A-Z]{2}[0-9]{4}"))
- Error Message: Please enter a valid number.

### **7.2 Service Records Object**

- Rule Name: service\_status\_note
- Formula: NOT(ISPICKVAL(Service\_Status\_\_c, "Completed"))
- Error Message: Still it is pending.

### **7.3 Billing Details and Feedback Object**

- Rule Name: rating\_should\_be\_less\_than\_5
- Formula: NOT(REGEX(Rating\_for\_service\_\_c, "[1-5]{1}"))
- Error Message: Rating should be from 1 to 5.

## **8. Creating a Flow**

### **8.1 Create Flow for Billing Details and Feedback**

1. Go to Setup > Flow > New Flow.
2. Select Record-triggered flow.
3. Configure the flow to trigger when a record is created or updated.
4. Add an Update Records element:
  - Label: Amount Update
  - Filter Condition: Payment Status = Completed

- . Field Values: Set Payment Paid to Service\_Amount\_\_c.
- 5. Add an Email Alert element:
  - . Label: Email Alert
  - . Recipient:
 

```
{!$Record.Service_records__r.Appointment__r.Customer_Name__r.Gmail__c}
```
  - . Subject: Thank You for Your Payment - Garage Management
  - . Body: Use a text template to include customer details and payment amount.
- 6. Save and activate the flow.

## 9. Apex Code for Amount Distribution

### 9.1 Create an Apex Handler Class

**Code:**

```
public class AmountDistributionHandler {
    public static void amountDist(list listApp){
        for (Appointment__c app : listApp) {
            if (app.Maintenance_service__c && app.Repairs__c &&
                app.Replacement_Parts__c) {
                app.Service_Amount__c = 10000;
            }
            else if (app.Maintenance_service__c && app.Repairs__c) {
                app.Service_Amount__c = 5000;
            }
            else if (app.Maintenance_service__c &&
                app.Replacement_Parts__c) {
                app.Service_Amount__c = 8000;
            }
            else if (app.Repairs__c && app.Replacement_Parts__c) {
                app.Service_Amount__c = 7000;
            }
            else if (app.Maintenance_service__c) {
                app.Service_Amount__c = 2000;
            }
            else if (app.Repairs__c) {
                app.Service_Amount__c = 3000;
            }
            else if (app.Replacement_Parts__c) {
                app.Service_Amount__c = 5000;
            }
        }
    }
}
```

### 9.2 Create a Trigger for Appointment

**Code:**

```
trigger AmountDistribution on Appointment__c (before insert, before update) {
    if (trigger.isBefore && (trigger.isInsert || trigger.isUpdate)) {
        AmountDistributionHandler.amountDist(trigger.new);
    }
}
```

}

## **10. Creating Reports**

### **10.1 Create a Report Folder**

1. Go to App Launcher > Reports > New Folder.
2. Name the folder Garage Management Folder and click Save.

### **10.2 Create a Report Type**

1. Go to Setup > Report Types > New Custom Report Type.
2. Select Customer Details as the primary object.
3. Add Appointment, Service Records, and Billing Details and Feedback as related objects.

### **10.3 Create Reports**

1. Go to Reports > New Report.
2. Use the custom report type to create and customize your reports.

## **11. Creating Dashboards**

### **11.1 Create a Dashboard Folder**

1. Click on the app launcher and search for dashboard.
2. Click on dashboard tab.
3. Click new folder, give the folder label as “ Service Rating dashboard”.
4. Folder unique name will be auto populated.
5. Click save.
6. Share the Dashboard Folder with the Role "Manager".

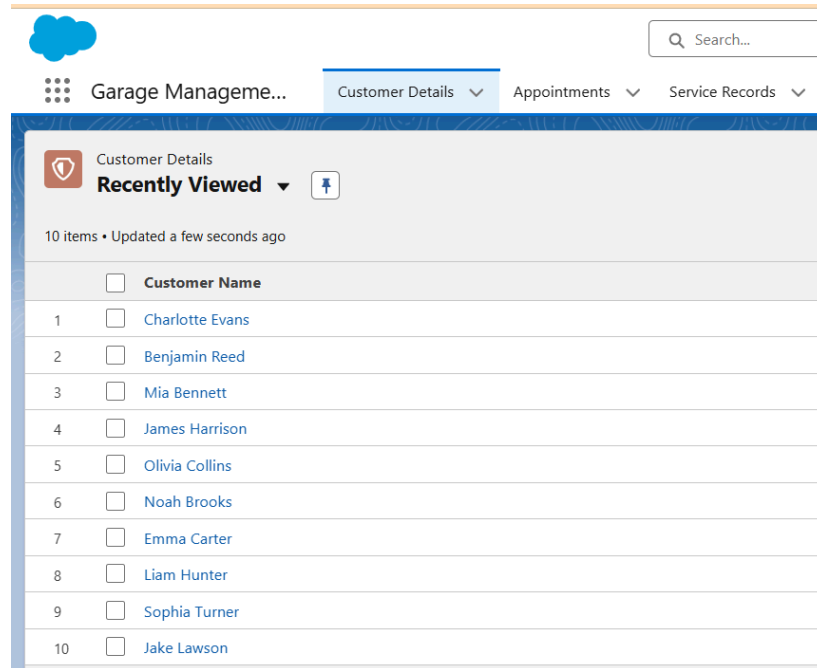

### **11.2 Create Dashboard**

1. Go to the app >> click on the Dashboards tabs.
2. Give a Name and select the folder that created, and click on create.
3. Select add component.
4. Select a Report and click on select.
5. Select the Line Chart. Change the theme.
6. Click Add then click on Save and then click on Done.
7. Preview is shown below.
8. After that Click on Subscribe on top right.
9. Set the Frequency as “ weekly ”.
10. Set a day as monday.
11. And Click on save.
12. The Dashboard is created.

# Garage Management System Overview

## Customer Details :

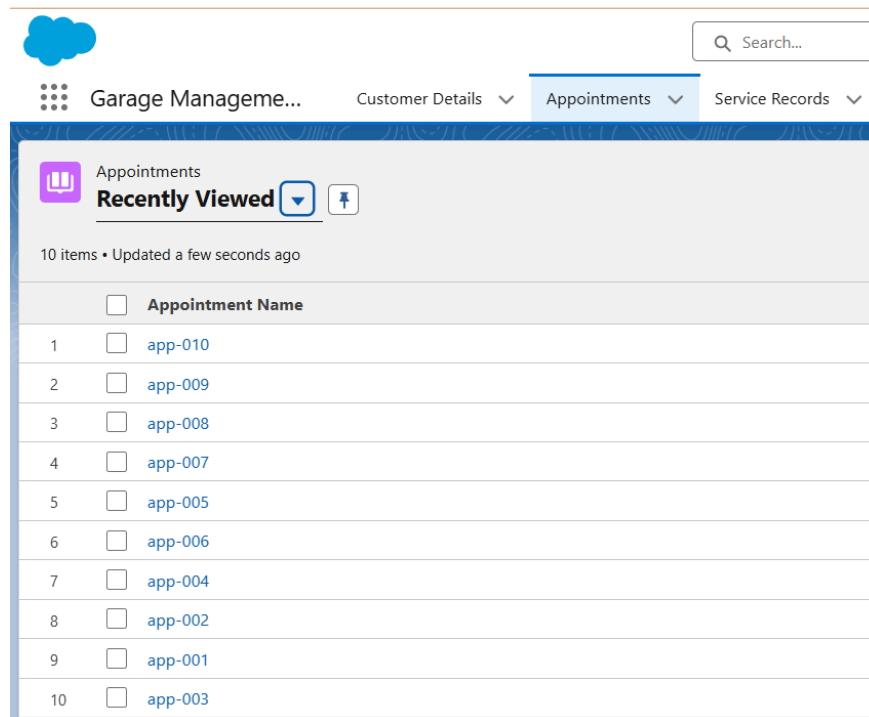

The Customer Details tab shows the list of Customers and their details.

Customer Details	
Recently Viewed	
10 items • Updated a few seconds ago	
<input type="checkbox"/>	Customer Name
1	<input type="checkbox"/> Charlotte Evans
2	<input type="checkbox"/> Benjamin Reed
3	<input type="checkbox"/> Mia Bennett
4	<input type="checkbox"/> James Harrison
5	<input type="checkbox"/> Olivia Collins
6	<input type="checkbox"/> Noah Brooks
7	<input type="checkbox"/> Emma Carter
8	<input type="checkbox"/> Liam Hunter
9	<input type="checkbox"/> Sophia Turner
10	<input type="checkbox"/> Jake Lawson

## Appointments :

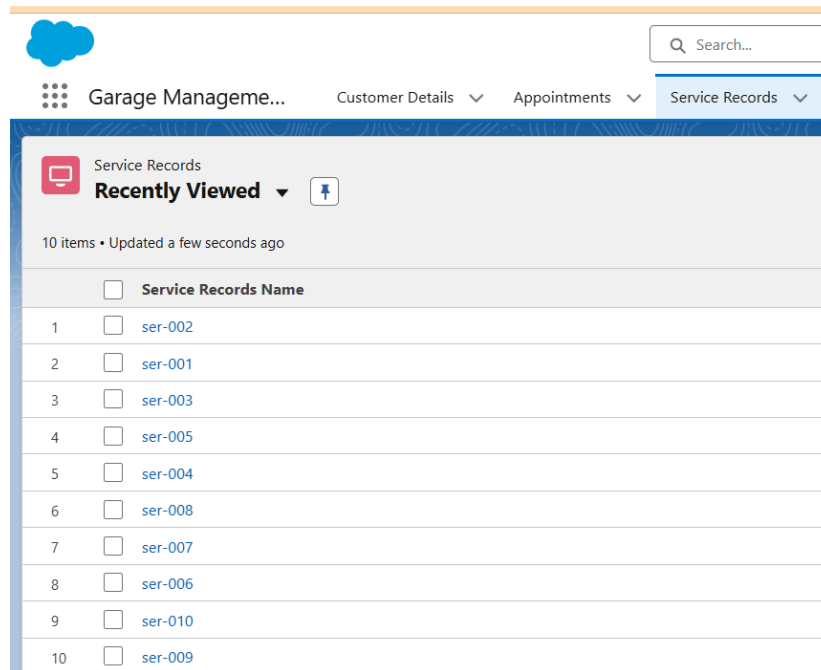

Shows the list of appointments and the appointment details.

Appointments	
Recently Viewed	
10 items • Updated a few seconds ago	
<input type="checkbox"/>	Appointment Name
1	<input type="checkbox"/> app-010
2	<input type="checkbox"/> app-009
3	<input type="checkbox"/> app-008
4	<input type="checkbox"/> app-007
5	<input type="checkbox"/> app-005
6	<input type="checkbox"/> app-006
7	<input type="checkbox"/> app-004
8	<input type="checkbox"/> app-002
9	<input type="checkbox"/> app-001
10	<input type="checkbox"/> app-003

### Service Records:

Shows the details of every Service record of the customer.

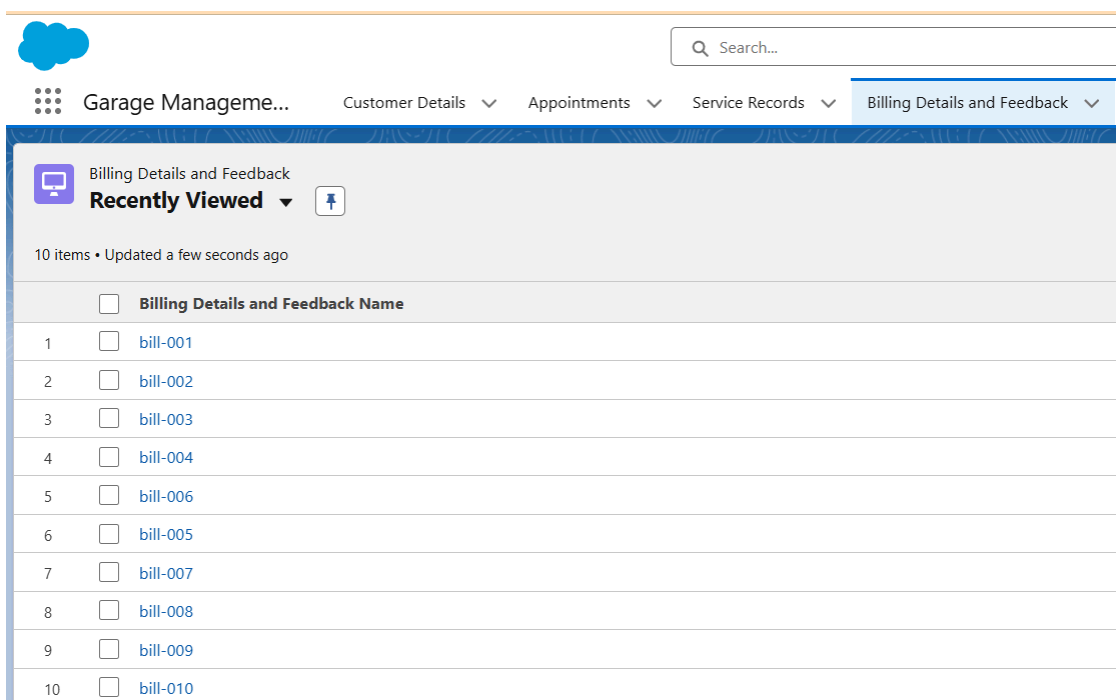

The screenshot shows a web application interface for 'Garage Management'. At the top, there is a search bar and a navigation menu with 'Garage Management...', 'Customer Details', 'Appointments', and 'Service Records'. The 'Service Records' tab is selected. Below the navigation bar, there is a header for 'Service Records' with a 'Recently Viewed' dropdown and a pin icon. It indicates '10 items • Updated a few seconds ago'. The main content is a table with 10 rows, each containing a checkbox, a 'Service Records Name' header, and a list of 10 items (1-10) with corresponding IDs (ser-002 to ser-009).

	<input type="checkbox"/>	Service Records Name
1	<input type="checkbox"/>	ser-002
2	<input type="checkbox"/>	ser-001
3	<input type="checkbox"/>	ser-003
4	<input type="checkbox"/>	ser-005
5	<input type="checkbox"/>	ser-004
6	<input type="checkbox"/>	ser-008
7	<input type="checkbox"/>	ser-007
8	<input type="checkbox"/>	ser-006
9	<input type="checkbox"/>	ser-010
10	<input type="checkbox"/>	ser-009

### Billing Details and Feedback:

Contains the overall summary of service, amount paid by the customer, payment status and Rating for the service.

The screenshot shows the 'Billing Details and Feedback' section of the web application. It features a search bar, a navigation menu with 'Garage Management...', 'Customer Details', 'Appointments', 'Service Records', and 'Billing Details and Feedback'. The 'Billing Details and Feedback' tab is selected. Below the navigation bar, there is a header for 'Billing Details and Feedback' with a 'Recently Viewed' dropdown and a pin icon. It indicates '10 items • Updated a few seconds ago'. The main content is a table with 10 rows, each containing a checkbox, a 'Billing Details and Feedback Name' header, and a list of 10 items (1-10) with corresponding IDs (bill-001 to bill-010).

	<input type="checkbox"/>	Billing Details and Feedback Name
1	<input type="checkbox"/>	bill-001
2	<input type="checkbox"/>	bill-002
3	<input type="checkbox"/>	bill-003
4	<input type="checkbox"/>	bill-004
5	<input type="checkbox"/>	bill-006
6	<input type="checkbox"/>	bill-005
7	<input type="checkbox"/>	bill-007
8	<input type="checkbox"/>	bill-008
9	<input type="checkbox"/>	bill-009
10	<input type="checkbox"/>	bill-010

Reports:

Reports give you access to your Salesforce data. You can examine your Salesforce data in almost infinite combinations, display it in easy-to-understand formats, and share the resulting insights with others. Before building, reading, and sharing reports, review these reporting basics.

Types of Reports in Salesforce

- 1. Tabular
- 2. Summary
- 3. Matrix
- 4. Joined Reports

Report: Service information New Service information Report					
<input type="checkbox"/> Rating for Service ↑ ▾	<input type="checkbox"/> Payment Status ↑ ▾	<input type="checkbox"/> Customer Name ▾	<input type="checkbox"/> Appointment Name ▾	<input type="checkbox"/> Service Records Name ▾	<input type="checkbox"/> Billing Details and Feedback Name ▾
<input type="checkbox"/> 3 (5)	Pending (3)	Sophia Turner	app-009	ser-009	bill-009
		Noah Brooks	app-007	ser-007	bill-007
		Mia Bennett	app-003	ser-003	bill-003
	Subtotal				
	Completed (2)	Jake Lawson	app-006	ser-006	bill-006
<input type="checkbox"/> 4 (3)	Completed (3)	Olivia Collins	app-002	ser-002	bill-002
		Liam Hunter	app-010	ser-010	bill-010
		James Harrison	app-005	ser-005	bill-005
		Charlotte Evans	app-001	ser-001	bill-001
	Subtotal				
<input type="checkbox"/> 5 (2)	Completed (2)	Benjamin Reed	app-004	ser-004	bill-004
		Emma Carter	app-008	ser-008	bill-008
	Subtotal				

## Dashboard :

Dashboards help you visually understand changing business conditions so you can make decisions based on the real-time data you've gathered with reports. Use dashboards to help users identify trends, sort out quantities, and measure the impact of their activities. Before building, reading, and sharing dashboards, review these dashboard basics.
